

1. Shara Makeup Studio

Yelp rating: 5/5

Number of reviews: 68

Shara Strand is one of the city's most distinguished artists who's worked on a large variety of high-profile clients. Her lessons begin with consultations on the desired end result, including going over any skin concerns and a look through what makeup you currently own if you're a daily makeup wearer. Afterward, she breaks down the makeup process step-by-step. Shara will complete half of each feature on your face and then allow you to follow along and do the other. This hands-on approach yields better results and will let you conquer your trouble areas and find perfect shades for all products. The best part is Shara is offering a **Mother's Day special** that includes a complimentary makeup lesson for your mom, which makes this the perfect gift and suitable for the top spot on our list.
